

COPING WITH CHALLENGING SITUATIONS IN DEMENTIA CARE

Presented by Beth Nolan, Ph.D., of Positive Approach to Care®

This session is designed to help professionals better understand the causes of challenging situations in dementia care, and how to address them when they arise. It will focus on looking beyond the disease to recognize other possible factors that may be causing or contributing to these challenges.

Professionals will be introduced to the “six pieces of the puzzle” that may be used to help determine these contributing factors. This problem-solving approach will be presented to help learners reduce the intensity, frequency, or occurrence of challenges.

Please Register by Friday, March 24th
